WORK EXPERIENCE

TSI **Sept 2024 – Dec 2024**
Back End Developer *London, ON*

- Developed secure RESTful APIs using Node.js, Express, and MySQL to manage user authentication, parent-child profiles, and volunteer submissions, ensuring robust data integrity, privacy, front-end integration.
- Collaborated on scalable back-end solutions using Laravel, leveraging advanced routing and Eloquent ORM to optimize database queries and improve application performance.

ARPI Accounting **May 2024 – Dec 2024**
Full Stack Developer Intern *Vaughan, ON*

- Developed a comprehensive financial management platform using React.js, Node.js, and MySQL to automate financial reporting, tax calculations, and data synchronization.
- Integrated QuickBooks via RESTful APIs to reduce manual entry errors by 40% and improve reporting efficiency.
- Built interactive dashboards providing real-time financial insights to enable data-driven decision-making.
- Optimized performance with Redis caching and secured data access with OAuth 2.0.

MLight **Jan 2022 – Dec 2022**
Software developer Intern *Oshawa, ON*

- Developed a full-stack Progressive Web App (PWA) for MLight's gaming mice using Angular and Node.js with Express
- Integrated WebUSB API into the PWA to enable direct communication with the gaming mouse firmware, allowing users to manage advanced features like DPI switching, macro programming, and dynamic RGB lighting directly through their browser
- Integrated firmware with the PWA and debugged embedded systems using STM32CubeIDE, ensuring seamless hardware-software interaction.
- Automated end-to-end testing of UI and firmware interactions using Selenium, verifying the stability of WebUSB API integration and identifying performance issues during user workflows.

EDUCATION

University of Western Ontario **Dec 2024**
BSc, Computer Science *London, ON*

- Object-oriented programming skills, using Java, C++, and Python to design modular, maintainable code.
- full-stack development, using HTML, CSS, JavaScript, React, and Node.js to build dynamic web applications.
- Familiarity with Git and project management tools like Jira and Confluence, applied in an agile environment

CERTIFICATIONS & PROJECTS

Docker Foundations Professional Certificate **August 2024**
DIY Home Server

- Set up and maintained a server with Docker Containers for media hosting, file sharing, photo backup, and password management.

SKILLS & INTERESTS

- **Skills:** C; C++; Python; Java; HTML; React; CSS; Angular; TypeScript; Bootstrap; Javascript; SEO; Shell Scripting; SQL; php; Jira; Git; Docker; Kubernetes; MySql; NoSQL; MongoDB; Pytorch; Linux; DevOps; Agile;
